Important Health Warning: Photosensitive Seizures

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people with no history of seizures or epilepsy may have an undiagnosed condition that can cause “photosensitive epileptic seizures” while watching video games. Symptoms can include light-headedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, momentary loss of awareness, and loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects. **Immediately stop playing and consult a doctor if you experience any of these symptoms.** Parents, watch for or ask children about these symptoms—children and teenagers are more likely to experience these seizures. The risk may be reduced by being farther from the screen; using a smaller screen; playing in a well-lit room, and not playing when drowsy or fatigued. If you or any relatives have a history of seizures or epilepsy, consult a doctor before playing.

WELCOME TO THIEF

In the shadows of The City, life and death change hands as sure as coin. Built over more times than history can recall, this contrasting sprawl of ancient stone and modern metal hides many secrets. Some would pay well for them to be uncovered; others to have them remain safely hidden away.

Garrett, the Master Thief, knows this well. He grew up alone on The City's fog-bound streets, honing his trade on the Thieves' Highway across the rooftops. What began as stealing for survival has become a lucrative occupation thanks to Basso, the Master Thief's only friend and fence. In good times and bad Garrett is the best thief who ever lived, remarkably skilled in infiltration, stealing and evading those who would disagree.

But now The City has grown sick.

Baron Northcrest, the Iron Leader, has become ever more ruthless in his pursuit of progress; a promised golden age of industry that has yet to arrive. In his name the Watch, led by the feared Thief-Taker General, maintain order by the most brutal means. Already suffering from the onset of a mysterious sickness known as 'the gloom', the people of The City struggle under increasingly harsh rule and the threat of uprising grows.

Seemingly back from the dead and searching for answers, the Master Thief returns to his home on the brink of this terrible change. Some will seek to use that change to their own ends. For Garrett, normally free of responsibility and master only to himself, The City's darkest hour offers the deepest shadows, the greatest rewards – and the highest price.
