#### **Important Health Warning About Playing Video Games**

#### **Photosensitive Seizures**

A very small percentage of people may experience a seizure when exposed to certain visual images, including flashing lights or patterns that may appear in video games. Even people who have no history of seizures or epilepsy may have an undiagnosed condition that can cause these "photosensitive epileptic seizures" while watching video games.

These seizures may have a variety of symptoms, including lightheadedness, altered vision, eye or face twitching, jerking or shaking of arms or legs, disorientation, confusion, or momentary loss of awareness. Seizures may also cause loss of consciousness or convulsions that can lead to injury from falling down or striking nearby objects.

Immediately stop playing and consult a doctor if you experience any of these symptoms. Parents should watch for or ask their children about the above symptoms—children and teenagers are more likely than adults to experience these seizures. The risk of photosensitive epileptic seizures may be reduced by taking the following precautions: Sit farther from the screen; use a smaller screen; play in a well-lit room; and do not play when you are drowsy or fatigued.

If you or any of your relatives have a history of seizures or epilepsy, consult a doctor before playing.

# INTRODUCTION

#### THE GAME

0

CONFLICT: DENIEO DP8™ features two agents from the CIA's Special Activities Division (SAD). Their mission: to prevent a third-world dictatorship from gaining nuclear weapons. This mission that will take them across three continents and pit them against the ambitious, powerful, dangerous men who control the nuclear arms smuggling trade.

With the ability to play as either agent, you can switch between two very different characters, maneuver them rapidly into position, and take full advantage of their individual skills and weapons. This is the essence of the game: each agent working with and protecting the other to create the perfect Denied Ops team.

CONFLICT: DENIED OP8 also lets you take part in co-operative and competitive play over Split Screen, System LINK and Xbox LIVE®.

#### THE FORCE

The Special Activities Division (SAD) is a clandestine unit within the CIA, responsible for covert paramilitary operations. The division numbers less than a hundred agents, pilots and specialists — all selected from the ranks

of retired US Army Special Forces, Delta Force and Navy SEALS, or from civilian organizations such as the FBI and SWAT. All agents specialize in advanced weaponry, guerrilla warfare, and the use of explosives and evasion techniques.

Working in small teams and conducting covert operations deep behind enemy lines, SAD agents do not carry anything that would associate them with the CIA or the United States. If captured, their existence will be officially denied.

# GETTING INTO THE GAME

- When the game starts, you are asked to either GIGN IN or CONTINUE WITHOUT
   A GAMER PROFILE. If you play the game without a gamer profile, you won't be
   able to manually save your progress.
- Next, you are asked to select your storage device. This will be the location of your Autosave and all manual saves from the Pause Menu (see page 20).
- 3. You continue to the Profile Screen, which offers the following options:
- LORD PROFILE Choose a gamer profile from a list of existing profiles.
   From here you proceed to the Main Menu.
- CREATE NEW PROFILE Set up a new gamer profile, and proceed to the Main Menu.
- DELETE PROFILE Delete one or more gamer profiles.
- EXIT Quit the game.

Once you arrive at the Main Menu, select GINGLE PLAYER CAMPAIGN to learn the game basics. This option takes you to the first mission and guides you through the basic CONFLICT: DENIED OP8 controls as you play.

 Although most of the important controls are introduced during the first mission, keep the Controls section of this manual nearby for quick reference while playing.

# SINGLE PLAYER CAMPAIGN

From the Main Menu, select SINGLE PLAYER CAMPAIGN. Then select NEW CAMPAIGN, and finally, select your level of DIFFICULTY.

#### NEW CAMPAIGN

An intro movie provides a full summary of the geo-political situation behind CONFLICT: DENIED OPS. A shorter movie then introduces the main characters: Graves and Lang. This then leads directly to the first mission: BANTA CECELIA MONAGTERS.

As the mission progresses, new objectives appear on the Objectives Screen (see page 15). You must complete these objectives in order to successfully finish the mission.

#### GAME SCREEN

The CONFLICT: DENIED OP8 game screen is left uncluttered to give you a clear view of your surroundings. Get used to First Person View: looking around, turning and aiming your weapon. Try switching characters (default 3).

The game has a number of on-screen icons and info panels, described here and on the following pages. Some of these are always visible; others appear briefly and then fade out.

#### **OBJECTIVE MARKER ICON**

Use the Objective Marker Icon as a directional guide. It indicates the direction to your next objective, and provides the distance to it in meters. Employ the Objectives Marker to locate objectives more rapidly and avoid getting lost.

You can open the Objectives Screen (default sex) to read details of your objective at any time.

#### AGENT INDICATOR

In combat, it is imperative to keep in touch with your fellow Agent at all times. The Agent Indicator Icon is always visible; it helps you locate an Agent's exact position. The icon changes to indicate when you have issued a specific order to an Agent. (See page 14.)

#### HEALTH MONITOR

If an Agent is stunned, you will see an on-screen Health Monitor. This displays a time limit in which the Agent must be healed. Get close to the Agent and press the Action button (default (a)) to heal your teammate.

■ The Health Monitor remains on-screen until you have healed the stunned Agent.

#### WEAPON AIM RETICLE

The crosshairs help you aim your weapon. They are color-coded to identify different types of targets.

- RED When targeting an enemy, the crosshairs turn red.
- UELLOW Explosive objects such as barrels and gas canisters turn the crosshairs yellow.
- GREEN Targeting a friendly turns the crosshairs green. (This is your warning: do not fire!)

#### WEAPON ICON

The weapon an Agent carries is always visible on-screen in First Person View. When a weapon is being fired (default ), its icon shows the weapon's name and number of rounds remaining.

All weapons are automatically reloaded when their ammo runs out, but this takes valuable seconds. If you think a firefight is coming up, check your ammo and reload if necessary (default 🔇) — it could mean the difference between a live Agent and a dead Agent.

You can earn secondary attachments for your main weapon, such as the 40mm grenade launcher or 12-gauge shotgun. Press default 🕚 to fast-switch between your main weapon and its attachment.

#### STANCE ICON/STANCE

When you alter an Agent's stance, the stance is shown as an on-screen icon, identified with the Agent's name. The stance you adopt in a particular situation is very important.

While standing, you can move faster across the ground, but your fire is less accurate and you are an easier target.

- Kneeling (default toggle ) makes you less of a target and gives you greater accuracy, but you move slower.
- For maximum accuracy, go prone (default toggle hold •).

#### INVENTORY

Open the Inventory (default hold **①**) to display an Agent's weaponry in a radial of on-screen icons.

 Press default ( to change your primary weapon.

#### GRENADE INVENTORY

Open the Grenade Inventory (default hold ) to display a radial of on-screen icons showing the type and number of grenades an Agent is carrying.

Frag and smoke grenades are available to Graves and Lang during their first mission. You can unlock flashbangs, incendiary grenades and proximity mines as the game progresses.

Select the grenade (default ( for a frag grenade) and throw when ready (default ).

#### SNIPER SCOPE

The 7.62mm sniper rifle comes complete with a powerful x10 variable scope. Select 8COPE AIMED WEW (default ) to display a highly accurate x05 sniper crosshairs, perfect for long-range stealth kills. For extreme close-up kills, you can increase Scope Aimed View up to x10 magnification (default ).

#### NIGHT VISION

Toggle Night Vision (default Q) when it is too dark to see clearly in normal light. Enabling Night Vision changes the display from color to monochrome.

#### HEALING

No matter how good you are, an Agent will take hits during a mission. Hits are shown graphically on-screen as red arcs (which also indicate the source direction of enemy fire). If an Agent is hit enough times to become "stunned," you have to revive him by going to his side, pressing the Action button (default **3**) when prompted, and administering a shot of adrenaline.

If you fail to heal an Agent within the on-screen time limit, you will fail the mission.

#### ON-SCREEN HELP

The Santa Cecilia Monastery mission includes helpful on-screen text that appears at key moments during the action. This text is intended to introduce features that are unique to CONFLICT: DENIED DPB, and give instructions on how to use them. Further tips appear on loading screens throughout the game.

#### ACTION BUTTON

In certain situations, positioning your character close to an object brings up an on-screen prompt. This prompt alerts you that you can perform a location-specific action. The game offers a wide variety of these actions, such as CLIMB LADOER, VAULT, HEAL, MOUNT HIME, EMBARK VEHICLE, etc. Press the Action button (default (a)) to perform the action.

#### AGENT ORDERS

Rapid communication between Agents is vital to the success of a mission. It is important to give clear and concise orders to avoid misunderstandings. When you issue an order to an Agent, an icon appears briefly on-screen, and the Agent responds verbally. Agent Orders will help you co-ordinate and carry out successful assaults on well-defended positions.

1

GO THERE

SUPPRESSIVE FIRE/ AGENT ORDER

You can order an Agent to:

- Advance to a position (default ).
- Follow you (default pull and hold □).
- Lay down suppressive fire to pin down enemies and keep their heads down while you advance (default B).
- Perform a context order such as download data or open a door (default 🔟).
- Take out a specific target (default aim and pull □).
- Carry out a grenade launcher/12-gauge shotgun assault (default press and hold 68 and press 6).

Agent Orders also allow you to order an Agent to throw a grenade at a pre-defined point.

- Open Agent Orders (default hold IB).
- Set your crosshairs on a target (default hold ®).
- Order a frag grenade (for example) to be thrown (default (\*\*\*)).

#### **OBJECTIVES SCREEN**

Press default to open and close the Objectives Screen. Your mission objectives are listed on this screen, and checked-off as they are completed. Additional objectives are added to the list until a mission is successfully completed. Press the Action button (default (a)) to get details on an objective.

#### TEAMWORK

Being successful in CONFLICT: DENIED DPB is all about working as a team. Plan ahead when moving through a mission, and make the most of each Agent's unique skills and strengths. Graves and Lang make a formidable fighting team when used correctly: get Lang to lay down suppressive fire while you assault a position; use Bounding Overwatch tactics to clear out a stairwell; set up a deadly crossfire and cut your enemies to ribbons.

#### FIRING FROM COVER

All weapons in CONFLICT: DENIED DPB provide an Agent with the ability to fire at enemies from behind cover. Pistols, the 12-gauge shotgun, and the 5.56mm LMG can all be used while leaning around a corner (default hold  $\bigcirc$  or  $\bigcirc$ ). The Gun Camera upgrade (default  $\bigcirc$ ,  $\bigcirc$ ) on the 7.62mm sniper rifle gives Graves the added ability to fire over low cover as well as around it.

#### SUPPLY CRATES

SAD Agents have to move fast, so they travel light. Their explosive supplies are limited, so be on the look-out for supply crates that are often located in out-of-the-way places. These provide your only opportunity to re-supply with explosive ammunition (e.g. grenades) during a mission.

#### SUPPORT

0

The Special Activities Division's arsenal includes attack helicopters and the latest fighter jets. AH-64D Apaches and F-22s are standing by to provide close air support throughout the campaign. SAD also has its own fleet of Pave Low Helicopters to fast-rope Agents into combat or extract them upon successfully completing a mission.

#### TANKS, APCs, HOVERCRAFT
